

Working with Minors

The following are guidelines only, and do not constitute legal advice. Consult with Production Counsel regarding working with minors.

- If any minor will be featured in any production, the Production Counsel must ensure compliance with all applicable Laws, taking into account the law of the state the minor resides in and (if different) the location where the production will take place.
- This may include, but is not limited to:
 - Wage and hour restrictions
 - Fulfillment of education requirements and supervision of minors
 - Fulfillment of work permit, notice and record-keeping requirements
 - Prohibitions on using minors in activities that are hazardous or detrimental to their health, safety, morals or education
 - Prohibition on nudity and simulated sex
 - Prohibitions on minors working within close proximity of any explosives
 - Any requirement that an adult is designated or employed to supervise the minor and safeguard the minors' best interest by accompanying the minor at all times.
