

Donations and Charities

If a charity or an event in support of a charity will be featured (including the planning or execution of an event benefiting a charity), or if viewers will be invited to contribute to any charity, Producer and its Production Counsel must take steps to confirm the legitimacy of the charitable organization, and that any funds contributed by viewers will be distributed in the manner described.

- **Approval Over Charities**

All charities or charitable causes featured in a program must be approved by YouTube. Please reach out to YouTube Production at least 2 weeks before selecting any charities for assistance in selecting a charity that is likely to be approved.

- **Donations**

Donations must be made in Producer's name and any donation to a nonprofit or otherwise should not be construed as a YouTube or Google donation under any circumstances.

- **Viewer Donations**

Any request that viewers contribute to a charity, whether made in the episode or online, must be approved by YouTube in advance.

- **Producer Donations**

Producer must obtain YouTube's approval before using production funds to make a contribution (or match any contributions) to any charitable cause.
