

# Budget Breakage Process

Producer must immediately notify YouTube of any anticipated overages from the approved budget. Any overage without YouTube's pre-approval in writing will not be reimbursed. After discussing with the YTO Production Executive, Producer would submit a formal proposal in writing with a line item breakage budget to the YTO Production Executive.

*No one on the production has authority to approve anything more than the approved budget without (1) prior written approval from the Head of Production and (2) a fully executed amendment to the agreement.*
