

# Title Clearance

The Producer is required to budget for the title clearance procedures, secure a full title report, and obtain a legal opinion letter to document that the title of the program has been cleared. In addition, YouTube requires Producer to obtain title coverage under its Error and Omission (E&O) Policy. An experienced trademark counsel that is approved by the Producer's insurance carrier should be used to provide the title report and opinion letter.

*Please do not obtain a full title report or legal opinion letter until you have received an approval on the specific title to be cleared from the YTO Production Manager.*

Please review the Licensed Property Title section in the [Title & Script Clearances](#) article for detailed information on ensuring a title is clear to use for the production.
