certain aspects of our proposal, we wanted to provide additional details, address specific topic areas

At the Mountain View City Council meeting on February 26, 2019, a number of comments and questions

For more information,

Google is seeking to partner with the City to construct a parking garage, fully funded by Google

For more information,

City of Mountain View; and 14 acres of privately owned, but publicly accessible parks and open space.

Across our landholdings in Shorebird and Joaquin, we are proposing 34 acres of publicly accessible open

recreation park within the Joaquin neighborhood of North Bayshore, and are working with the Mountain

With regard to the land dedication, we've proposed a 2.5-acre elementary school site plus a 1-acre active

combination of funds and a land dedication for a new elementary school.

To support new local schools, we're proposing as part of our community benefit package to collectively

contribute 5.5x the State mandated school fees to the Mountain View Whisman School District and

60% of the land within these neighborhoods, primarily in Joaquin and Shorebird. We've

deliver on the 9,850 residential unit target.

Google owns 58% of the land within these neighborhoods, primarily in Joaquin and Shorebird. We've
