75%

of learners report a positive impact to their career¹

Helping Granite Staters develop digital skills to grow their careers

50% of the workforce will need to reskill by 2025² and 1 in 3 American workers have very limited or no digital skills.³ We're working to help people advance their careers and pursue new opportunities by making digital skills accessible to everyone. To date, we have helped over 300,000 Americans find employment and increase their income through digital skills training.

150,000+

Google Career Certificate graduates in the U.S.

[Google Career Certificates](#) help people develop skills for new jobs in fields like data analytics, UX design and more in just three to six months. After completing the program, graduates are able to connect with 150+ top employers. Within six months of completion, 75% of program graduates report a positive career outcome, such as a promotion, raise or new job.⁴

Google has also partnered with New Hampshire educational institutions like Lakes Region Community College to make Google Career Certificates available to students and to increase employment opportunities.

43,000+

New Hampshire students trained in computer science to date

Google is helping address inequities in computer science education by offering no-cost products and programs, like [CS First](#) and [Code Next](#), to students across the U.S. To date, Google has invested over \$240 million toward computer science skilling including Google.org grants to organizations like National 4H Council and Hidden Genius Project.

Supporting New Hampshire nonprofits and local organizations

Local organizations and nonprofits across New Hampshire are doing great work to support their communities. Google is proud to partner with trusted community organizations to further that work, and bring digital skills training, grant funding and other resources to more Granite Staters.
