At home in Nevada

Google proudly calls Nevada home with data centers in Henderson and Storey County.

\$6.28B of economic activity

In 2022, Google helped provide \$6.28 billion of economic activity for tens of thousands of Nevada businesses, publishers, nonprofits, creators and developers.

168,000+ Nevada businesses

More than 168,000 Nevada businesses used Google's free tools to receive phone calls, bookings, reviews, requests for directions and other direct connections to their customers.

111,000+ Nevadans trained

Grow with Google has partnered with 64 organizations in the state to train more than 111,000 Nevadans on digital skills, including organizations such as public libraries, chambers of commerce, community colleges and more.

Helping Nevada's small businesses and startups thrive

Nevada business owners are leveraging digital tools to find new customers and grow amidst economic challenges, like inflation and talent shortages. To help Silver State businesses like Michael and Son's Jewelers, Google is increasing access to capital, trainings and free resources.

\$191M

provided to support small business resilience

Google's commitment of \$191 million in loans and grants to Opportunity Finance Network (OFN) supported community development financial institutions (CDFIs) including Rural Community Assistance Corporation in Nevada, to deliver low-interest loans to over 130,000 underrepresented businesses and nonprofits.

\$190M

in venture capital raised by Google for Startups Founders Fund recipients in the U.S.

[The Google for Startups Black and Latino Founders Funds](#) provide cash awards and hands-on help to support underrepresented entrepreneurs throughout the U.S.

75%

of learners report a positive impact to their career¹

Helping Nevadans develop digital skills to grow their careers

50% of the workforce will need to reskill by 2025² and 1 in 3 American workers have very limited or no digital skills.³ We're working to help people advance their careers and pursue new opportunities by making digital skills accessible to everyone. To date, we have helped over 300,000 Americans find employment and increase their income through digital skills training.

150,000+

Google Career Certificate graduates in the U.S.

[Google Career Certificates](#) help people develop skills for new jobs in fields like data analytics, UX design and more in just three to six months. After completing the program, graduates are able to connect with 150+ top employers. Within six months of completion, 75% of program graduates report a positive career outcome, such as a promotion, raise or new job.⁴

Google has also partnered with Nevada educational institutions like Truckee Meadows Community College to make Google Career Certificates available to students and to increase employment opportunities.

295,000+

Nevada students trained in computer science to date

Google is helping address inequities in computer science education by offering no-cost products and programs, like [CS First](#) and [Code Next](#), to students across the U.S. To date, Google has invested over \$240 million toward computer science skilling including Google.org grants to organizations like National 4H Council and Hidden Genius Project.

Investing in local communities

Local organizations and nonprofits across Nevada are doing great work to support their communities. Google is proud to partner with trusted community organizations to further that work, and bring digital skills training, grant funding and other resources to more Nevadans.

\$1M+ in grants

Since 2006, Google.org has awarded over \$1 million in grants to Nevada organizations and nonprofits.

\$770,000+ in charitable giving

Since 2014, our employees based in Nevada – including matching contributions and philanthropic giving from Google.org – have donated over \$770,000 to nonprofits.

1,300+

volunteer and pro bono hours

Through Google.org, employees served over 1,300 hours of volunteer and pro bono work with nonprofits and schools in areas we're passionate about, including STEM education, economic opportunity and access to the internet.

1,700

nonprofits supported
